

ExxonMobil

about ExxonMobil in Malaysia

The ExxonMobil Subsidiaries in Malaysia are subsidiaries of the Exxon Mobil Corporation, a global industry leader in almost every aspect of the energy and petrochemical business. Formerly known as the Esso and Mobil companies, our history in Malaysia goes back more than a century with the sale of kerosene. Today, our operations are diverse, ranging from the upstream business of exploration and production of oil and gas, to the downstream business of refining and marketing petroleum products. Our major contribution is to provide society with energy, petroleum and chemical products, in a safe, reliable and environmentally responsible manner. This helps ensure Malaysia's continued economic growth and improves the quality of living.

The ExxonMobil Subsidiaries in Malaysia are:

upstream

ExxonMobil Exploration and Production Malaysia Inc.
(EMEPMI)

downstream

Esso Malaysia Berhad
(EMB - public-listed company on the Main Board)
ExxonMobil Borneo Sdn Bhd
(EMBSB)

(EMMSB)

chemicals

ExxonMobil Chemical Malaysia Sdn Bhd (EMCMSB)

services

ExxonMobil Business Support Centre Malaysia Sdn Bhd
(EMBSCMSB)

financing

ExxonMobil Services (Labuan) Limited (EMSL)

Our main offices are located within the Kuala Lumpur City Centre (KLCC) area in Kuala Lumpur. Key operations are located offshore Terengganu and in Port Dickson, Negeri Sembilan. There are approximately 2,000 ExxonMobil employees in Malaysia with nationals representing 98 percent of the workforce.

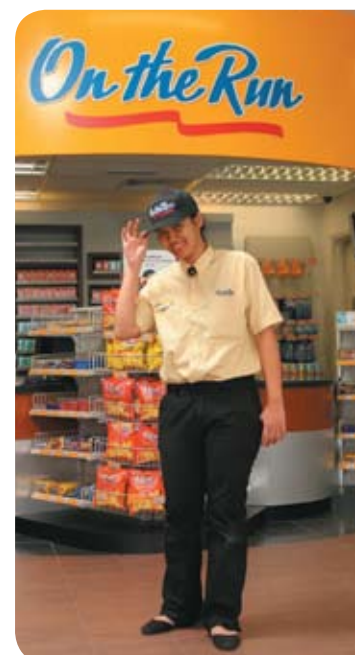

upstream exploration & production of oil and gas

Within our upstream business, ExxonMobil Exploration and Production Malaysia Inc. is one of the major crude oil producers and suppliers of natural gas to Malaysia. We operate more than 40 offshore platforms in the South China Sea. Daily crude oil and condensate production is about 160,000 barrels while natural gas production is approximately 1.2 billion cubic feet a day. ExxonMobil Exploration and Production Malaysia Inc. operates as a contractor to PETRONAS under the Production Sharing Contract (PSC) terms.

downstream refining and marketing of petroleum products

Since the sale of our first petroleum products in 1893, our downstream activities have expanded to include an 88,000 barrels a day oil refinery in Port Dickson, eight product distribution terminals and a network of 530 Esso and Mobil branded service stations across the country. Esso Malaysia Berhad, a public listed subsidiary, together with ExxonMobil Malaysia Sdn. Bhd., operate the Esso and Mobil service stations in Peninsular Malaysia. Esso Malaysia Berhad also operates the Port Dickson Refinery. In East Malaysia, ExxonMobil Borneo Sdn. Bhd. operates service stations under the Esso brand. All three subsidiaries market lubricants, engine oils, other speciality products and cooking gas.

chemicals

In the chemicals business, ExxonMobil Chemical Malaysia Sdn Bhd has a strong market position, supplying a portfolio of specialty products such as fluids, plasticisers, butyl rubbers, resins, plastics and specialty chemicals. These are used by manufacturers to make products that we use everyday such as insecticides, paints and varnishes, aerosol sprays, adhesive tapes, inks and even chewing gum.

business support services

ExxonMobil Business Support Centre Malaysia Sdn Bhd was established in March 2004, with Multimedia Super Corridor (MSC) status. It provides infrastructure, applications services, project management and customer service support to ExxonMobil affiliates all over the world. Coverage to ExxonMobil global customers is provided on a 24-hour basis seven days a week in English, Asian and European languages.

corporate citizenship

ExxonMobil strives to be a good corporate citizen in all places we operate. This means being committed to strong business ethics, safety and health as well as environmental care. We believe this is fundamental to long-term sustainable results. Our safety and environmental performance has long been recognized and we have won numerous awards both internally as well as from various government, industry and safety bodies.

community activities

ExxonMobil has a long tradition of helping to improve the quality of life in the communities in which it operates. We deeply believe that as economies develop and people become better educated, aware and affluent, they make sound decisions for themselves and their communities. This in turn fosters further economic growth and development. Each year, we support community programmes that improve education, welfare, the environment and health care. Our employees and their families also volunteer their time, skills and energy to make a difference in communities in which they live and work. Under the theme "Touching Lives Together", employees carry out several projects annually which include repairing homes for the underprivileged, upgrading school facilities and enhancing the environment.
