

Product Safety Policy

It is Exxon Mobil Corporation's policy to:

- identify and manage risks associated with its products and not manufacture or sell products when it is not possible through proper design, procedures, and practices to provide an appropriate level of safety for people and the environment;
- specify precautions required in handling, transporting, using, and disposing of its products and take reasonable steps to communicate them to employees, customers, and others who might be affected;
- comply with all applicable laws and regulations and apply responsible standards where laws and regulations do not exist;
- work with government agencies and others, as appropriate, to develop responsible laws, regulations, and standards based on sound science and consideration of risk;
- include identification and control of potentially adverse health, safety, and environmental effects as priority considerations in the planning and development of products;
- conduct and support research to extend knowledge about the health, safety and environmental effects of its products, and promptly apply significant findings and, as appropriate, share them with its employees, contractors, customers, the scientific community, government agencies, and the public;
- undertake appropriate reviews and evaluations of its operations to measure progress and to foster compliance with this policy.
